"ALLEN'S-SPECIAL" BOOTS and **EVENING SLIPPERS \$4 A PAIR**

A result of specializing on women's footwear at \$4.00, \$5.00, \$6.00, \$7.00 and \$8.00, as we do, is that you can have a greater variety of stylesto choose from, and better styles, we think, than most stores carry, at any one price.

For instance, we have thirty-three separate and distinct styles of women's boots at \$4.00 a pair. 25 Evening Slippers at \$4.00.

Some of them we can truthfully claim are \$4.50 grades; they were really bought to sell for that ninety days ago. Two styles are special purchases and are regular \$5 values.

When we say \$4.50 and \$5.00 values for \$4.00, we mean it.

You can come here expecting to find shoes and slippers that by every standard of value are worth fifty cents to a dollar-apair more. The leathers are patent, gun metal, Russia calf, vici kid, and dull mat kid in boots. "Satin, kid and suede in slippers.

A few thoughtless people have seen some \$6.00, \$7.00 and \$8.00 shoes in our window, a little more prominently displayed than the \$4.00 and \$5.00 ones, and have circulated the report that we have nothing but high price shoes.

For this reason we have arranged a display of \$4.00 footwear in our South window that you should see.

We can not devote so much space to one price shoe permanently and this will give you an opportunity to see what Allen can furnish at \$4.00.

They are daintiness itself!

Of accordion-pleated chiffon, the skirt is fashioned in the new tier style. There is an inset of cream shadow lace at the bottom of the skirt and in the tier, the bodice and sleeves show this lace, too. The girdle is of crushed satin with a tiny corsage of French flowers. A little jeweled band finishes the round neck.

As charming a little dancing frock as double the price usually tinds.

Having Gathered THE RIGHT SORT of Merchandise For the Many Departments of This Store---

Now we are in the midst of sending it into the homes of Atlanta and vicinity, to do its part toward gladdening hearts and solving the problems of homekeeping. The work of gathering it has been done well—better than in any former year—so we are told, so we have every reason to believe.

And that is the very important part, to get the merchandise that women will want, that they see value in. And the store that has done this knows no other satisfaction quite so complete.

Whether it be buttons or braids, blouses or blankets, suits or silks, coats or corsets, hats or hosiery—to know that quality, style, genuine worth are represented in every item that goes to make up the huge stocks of this store, and that those who look to us to help them at this season are not to be disappointed—it's as bracing as the crisp air of these fine mornings.

Are you one of those who are making Chamberlin-Johnson-DuBose Company your shopping center?

We venture you should be, we venture you will, once you visit the store and note the goings-on here.

There they go!

And the chauffeur takes the car back home. Such toys!

Be Patient with Fools---That Is a Most Important Art

If It Were Not for "the Fools," the Wise Man Would Be Less Prosperous. He Might Worry.

There lived in the West a very wise, powerful man, whose

son, just out of college, was running a newspaper.

The son, in his early twenties, complained bitterly to his father that he had frequently to deal with fools who could not

The father replied solemnly, "You must learn to be patient The father replied solemnly. "You must learn to be patient with fools, my son. There are many of them; they form a large part of the population.
"If you don't understand them, you can't understand the population. And, my boy, you and I might not be as well off as we are if there were fewer fools in the world.
There was wishom boiled down into few words, readers. Take the wisdom to yourself, and make it useful.

Let us all, dearly beloved, learn to be patient with fools—and sepecially with those that in our majestic self-concets we mis takenly THINK are fools. It happens sometimes, in this queer world, that the individual we take for a fool is something quite different.

world, that the individual we take for a fool is someshing quite different.

All of those who looked at Newton, the greatest mathematician that ever lived, said, when he was a boy, that he was a fool and always would be. He was fusing in the sand, instead of doing something else. They didn't know that he was working out mathematical problems in the dust with a piece of stick. Michelson, of the University of Ohicayo, one of the greatest living scientists and winner of the Nobel prize, went to Annapolis with other young gentlemen, studying to be a fierce navel fighter. The other young gentlemen nick-manned him "Feeble Efforts." Nobedy will remember any of THEM, unless it is because they were at the Naval Academy WITH MICHELSON. He corrected me's knowledge at to the speed of light, and thus corrected all measurements of distances in space. And, incidental ly, he is just conducting experiments teeting "the rigidity of the carth," which demonstrates the fact that this earth is twice as rigid as it would be if made of solid steel.

Interesting to those that have brains.

Let us, as we have said, learn to be patient with fools, and also, whenever possible, let us learn to realize that it is ourselves and not the other man who is a fool-very often.

There are fools in the world—many of them, millions of them. But there is only one real kind of fool. And be is the man who is not patient, free from self-conectic, or willing to learn.

The man who will learn and who will be patient is never a fool.

Be patient with fools, for practicing patience alone is of the atest possible value.

Genius is nothing but patience, AND POWER.

The patience without the mental power can not produce

The patience without the mental power can not produce genius.

But the mental power, no matter how great, can not translate itself into the work that we call genius unless it has "the infinite capacity for taking pains," which means patience.

Be patient with fools, for they are the majority. And we must make our living from the principre, for our applause front the majority, and win our vetories over the majority. Be patient with fools, also, dearly beloved wise men, because this world would be uncounfortable for you, wise men, because this world would be uncounfortable for you, wise men, if there were not so many fools in it.

There are many successful mee, and ninety-nine out of one hundred are really successful BECAUSE NORDY GAVE THEM SERIOUS COMPETITION.

You can put your Bigge on the map, and hit any little town, and find in it a presphenus, successful newrapaper.

GIVE IT COMPETITION and you won't see it in its months. And in the same town, on Main street, you will find a very propersous, successful merchant.

Give him the taste of such competition as a bigger man could give him—and you might soon find him driving the bigger man's delivery wagen, if he hadn't saved up money.

We succeed, because the fools are plentiful, soft and easy, just as the woodman's ax hink deep, because the trees are plentiful, soft and easy.

Give the ax steel to cut, and the story will be different, and

just as the woodman's ax sinks deep, because the trees are plen-tiful, soft and easy.

Give the ax steel to cut, and the story will be different, and the obopper's arms will ache.

" Take army the fools, the men who think they can succeed without effort, and life will become a harder, more difficult prob-

Study the fool; be fatient with him. If you know him, you know more than half of the human race.

And study yourself, AND DON'T BE PATIENT WITH YOURSELF, and don't be afraid to call yourself a fool.

Your own criticism should weed out the fool features of your own nature, just as the bruistly of the Middle Ages weeded out the fools and the drunkards from among the people.

Fool."
If you call your brother "Thou Fool," you will go to hell, as the Bible tells you, and after you get there the things that will happen to you would make a whole moving picture by themselves.

But do not hemitate to call yourself "Thou Fool" There int one of us that does not need to be called 'fool" BY HIM.

RELIF many times a day.

Be merciless with yourself, merciful to others, PATIENT

WITH FOOLS ABOVE ALL.
